## **Bingo Shift Volunteers Request**

As we move closer to our amalgamation with North Simcoe Anglers and Hunters, we need to be prepared to fill in Bingo Shifts and Angel Gate Gaming in Penetang. We will need six volunteers (two committed so far) and it is our plan to have appropriate training completed so that we are ready to volunteer in January.

Our plan is to complete three bingo shifts per month and this will require two people per shift. With enough volunteers, each person will do one shift per month. It is extremely important that when you volunteer for a shift, that you attend that shift, or, if life causes you to be unable to attend your shift, you will contact our Volunteer Coordinator (yet unnamed) to arrange for the backup person to attend. Dress Code. GBHA will provide an appropriate golf style collared shirt with our Logo embroidered on the left front of the shirt. This must be worn at all times while volunteering at Angel Gate. See rules below.

So that you know what is expected of you as a Volunteer, please see below the rules for Bingo volunteers. Any questions please direct to Alan Wheeler at [acwheeler66@gmail.com](mailto:acwheeler66@gmail.com)

## Conservation Updates

There is still no conservation planned for the month of December at this time, but keep an eye on your emails and the Club's Facebook page in case we do plan something after this bulletin goes out. Looking forward to the winter months, we will be preparing for our annual work to maintain and monitor the duck nesting boxes around the Tiny Marsh and Matchedash Bay areas. Dates and times will be announced in the next bulletin.

As the winter weather continues, the topic of feeding wildlife (especially white-tailed deer) often comes up. With any human interventions, there are a number of things to be cognizant of, as there is always a potential to have a negative impact (regardless of the intentions). In an effort to help, people will often introduce foods, such as corn, alfalfa, various mixes, etc. The sudden availability of these foods, especially in large quantities can actually cause more problems, including digestive upset and even death. Providing supplemental feeding can also lead to increased density of deer in an area, leading to other issues, including; increased predation, the spread of disease and parasites (such as Chronic Wasting Disease), and human-wildlife conflict (property damage, vehicle collisions, etc.). If you do choose to provide additional food sources, there are some things to consider.

Moving into the season, a deer's diet adapts to eating their winter browse, which includes buds and twigs of woody plants. The best way to help deer through particularly difficult winters, is to make their natural browse more readily available. Practices such as "hinge cutting" brings the twigs and buds of larger trees down into a range where the deer can reach them. This can be done in the winter, but keep in mind that you do not want to go out into an area and stress the deer more with your presence and disturbance to the area, especially in extreme winter conditions.

This is something you can also make a project of throughout the year. If you have property with a wooded area, you can selectively remove trees/shrubs to help create more open space. This can allow more sunlight to reach the forest floor, resulting in new growth, and therefore more food within the reach of deer and other species. You can also look into planting other beneficial plant species to provide additional food sources. There are commercial products that are meant for the creation of food plots, but it is always best to use more natural practices and native species, to avoid introducing or spreading detrimental invasive and/or non-native species.

There are countless resources online to learn more about the do's and don'ts of winter feeding. Here are a couple good ones.

## **GBHA MEMBERS VOLUNTEER HOURS:**

We realize that for some Members of GBHA that timing of our events, dinners, clean up days etc. do not always line up with our members availability, and timing.

We have been asked by some members if there are things that can be done to Volunteer separate to events and dinners. The answer is most certainly yes!

Please send an email to [gbhaclub@gmail.com](mailto:gbhaclub@gmail.com) with the subject header Volunteer Hours and ask what current tasks are where you may offer your volunteer hours. There is always a myriad of tasks around our Club and grounds that can be done by you and within your own time frame.

Once you have completed your volunteer hours, simply send a note to Alan Wheeler who will record your hours for the month/year. Thanks in advance!!

Should anyone not be able to make it out for volunteers' events to fulfill your hours please contact Alan Wheeler @ 705-828-1095, or email [acwheeler66@gmail.com](mailto:acwheeler66@gmail.com). *Please update your volunteers' hours monthly. ### **Editor's Note:**

With the Christmas season upon us, we are all preparing for the festive season. Ensuring we have all the gifts bought, food prepared and decorations up! It can be a very busy time of the year for us all. Especially for the executive board members. Not only are they all getting ready for their own Christmas but they remain very dedicated in keeping the club going.

It has truly been an honor to sit on a board for so long with so many different members and get so much completed and maintained. This dedication continues on into the New Year!

The New Year brings many monthly tasks for each board member but we are now moving forward with day-to-day business, we have some huge renovation projects that will begin in the near future.

But there is something even bigger we are planning! We will be moving forward with our planning for our 100 Year Anniversary! 100 years, wow! To think this little club started as a hunting club up in Cognashene then progressed its way to our current location with over 400 members! Something to be very proud of!

An event of this size will require a dedicated group of volunteers to form a committee to lay out the plans and the execution of this event. We will announce a date for a meeting to form this committee in the January bulletin.

These meetings will be used to develop a committee and take suggestions and ideas of how to celebrate our heritage of what we as a club are about. This ceremony will be held on the National Hunting Trapping and Fishing Heritage Day, Saturday September 16 2023.

We ask many times for volunteers through out our year for many different reasons, all in flavor of improving our club and or our community. Without volunteers we would not have made it to 100 years! We thank all those over the years whom have unselfishly come forth and assisted in may different ways, it has and will be greatly appreciated.

Remember folks that as the year ends, take some time to check your permits and licenses to ensure they do not expire. It appears that the renewal process is slower than in previous years so do not hesitate, renew your licenses and permits and hunting reports now!

We ask that while you're out preparing for your festive season, please remember to help those who will not have this year by donating toys, food or cash where needed! It will go along way for so many!

Georgian Bay Hunters and Anglers Executive and Chairpersons would like to wish each and everyone of you a very Merry Christmas and a Safe and Happy New Year!  
Stay Safe, Stay Well!

## *We Wish You All a Very Merry Christmas and Happy New Year's!*
